PROFESSIONAL SUMMARY

Motivated Data Science undergraduate with hands-on experience in Python, SQL, data preprocessing, exploratory data analysis (EDA), statistical analysis, and data visualization. Experienced in analyzing datasets, identifying patterns and trends, and developing machine learning and time series forecasting models. Proficient in using Python libraries and analytical tools to transform raw data into meaningful insights. Eager to apply analytical and problem-solving skills while contributing to data-driven decision-making in a professional environment.

ACADEMIC HISTORY

B.Sc. (Hons) in Data Science | Sabaragamuwa University of Sri Lanka *2024 – 2028*
G.C.E. Advanced Level Examination | Royal Central College, Polonnaruwa *2022*

PROJECTS

Stroke Prediction System | *Individual Project – Machine Learning*

- Analyzed and preprocessed a dataset containing 9,722 records to develop a stroke prediction model.
- Performed data cleaning, exploratory data analysis, missing-value handling, and feature preparation.
- Developed and evaluated a Random Forest classification model, achieving 99.33% accuracy.
- **Technologies:** Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn.

Adidas US Sales Forecasting | *Individual Project – Time Series Analysis*

- Analyzed historical Adidas US sales data to identify sales trends and seasonal patterns.
- Performed time series analysis and developed an ARIMA (1, 1, 1) model to forecast future sales.
- Evaluated time series stationarity as part of the forecasting process.
- **Technologies:** Python, Pandas, Statsmodels, Matplotlib.

Customer Churn Prediction | *Group Project – AWS & Machine Learning*

- Preprocessed customer data and developed Logistic Regression and Random Forest models to predict customer churn.
- Compared model performance using classification evaluation metrics.
- Used AWS services to support the data processing workflow.
- **Technologies:** Python, Pandas, Scikit-learn, AWS S3, AWS Lambda, Git, GitHub.

PlantGenesis | *Individual Project – Web Development*

- Developed a web-based educational platform for plant tissue culture using frontend and backend technologies.
- **Technologies:** HTML, CSS, JavaScript, Bootstrap, Laravel

CERTIFICATES

- Google AI Essentials Specialization - Coursera, 2025

ACHIEVEMENTS

- **DataStorm 7.0 – Data Science Competition** – Top 30 Finalist Selected in DataStorm 7.0, applying data science, analytical thinking, and problem-solving skills to a real-world challenge.

TECHNICAL SKILLS

- Languages & Frameworks: Python, Java, PHP, JavaScript, Laravel, React, HTML, CSS, MySQL
- Data Science & ML: NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch
- Tools & Analytics: Power BI, Git, GitHub

SOFT SKILLS

- Soft Skills: Team Management, Problem-Solving, Creativity, Teamwork, Leadership, Adaptability, Multitasking
- Spoken Languages: English (Intermediate), Sinhala (Native/Bilingual)

VOLUNTEERING

- STEM Volunteer / Educator - STEMUP Educational Foundation
- Rotaract Club Volunteer - Rotaract Club of Sabaragamuwa University of Sri Lanka
